About AES

AES (International Conference on Antennas & Electromagnetic Systems) is a focused international forum for researchers and industry professionals working on *antennas, propagation, computational electromagnetics, microwave/mmWave/THz systems, metasurfaces, radar and sensing, EMC/EMI, and emerging RF technologies*.

With an intimate scale and a highly specialised audience, AES enables high-quality technical discussions and strong one-to-one interactions—ideal conditions for sponsors seeking qualified leads and partnerships.

Scale	200-300 participants expected; strong representation from academia, research labs and industry.
Scope	Antennas and arrays, propagation and channel modelling, RF/microwave/mmWave/THz, metasurfaces, radar and sensing, EMC/EMI, computational EM, measurement techniques, and applications (telecom, aerospace, defence, automotive, biomedical).
Format	Plenaries and keynotes, technical sessions, special sessions, tutorials, exhibition, and networking events.
Venue 2026	Monastero di San Nicolò l'Arena, University of Catania (3–6 June 2026).

Key Benefits for Sponsors
